

Tracking

Manual Tracking

spots -->

- Enable 'Track Spots'
- 'skip automatic creation and edit manually'
- pencil tab:

'auto connect to selected spot' - in each time point select the position of your subject using shift+click.

A track is created.

Edit Tracks:

- connect tracks - choose two tracks, and click on connect
- disconnect tracks - choose spot, and click on disconnect
- delete - choose spot/track --> pencil tab --> delete
